

# JAIPUR PLASTICS

*Jaipur Plastics specializes in Injection Moulding and related services.*

Jaipur Plastic is a manufacturer of high quality injection moulded parts. Founded in 2010, Jaipur Plastic is evolving and serving various companies with complex, precision injection moulded components on a J.I.T. basis and has developed considerable expertise in injection moulding technology for the industries.

We are a forward-looking, progressive company always on the lookout for innovative concepts and ideas. It is an extremely flexible company that works closely with its customers on product design, product adaptation, and branding.

It is Jaipurplast's belief that a personal approach, and a close supplier / customer partnership works to the advantage of both parties. Jaipur Plastic ensures that it works closely with its partners from the initial point of contact to the complete after-sales service that it prides itself on. It is this friendly, personal touch that has set Jaipur Plastic apart from its competitors.
